

Instruction Sequence

Scene commences with player standing near the edge of a lake of bubbling lava. As each bubble rises and pops, it releases the phoneme sound /s/. The player is standing next to a NPC who is the player's magical mentor, a powerful sorcerer.

After 3 bubbles pop, the magical mentor explains to the player that they are at this lake to capture the /s/ sound and its magical powers.

The mentor demonstrates that the /s/ sound can be captured by writing the symbol and saying the symbol's name.

The mentor waves its wand in the shape of the letter S and says the S's name "S".

Upon completing this magical action, the magical mentor summons energy from the bursting lava bubble into an orb receptable inscribed with the letter S.

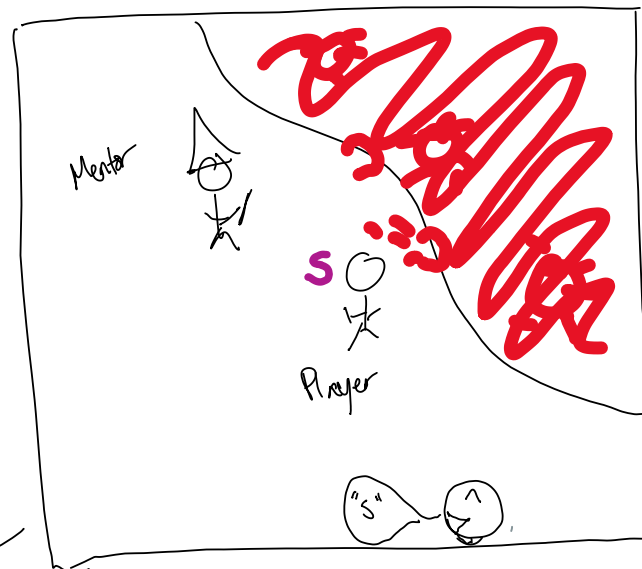

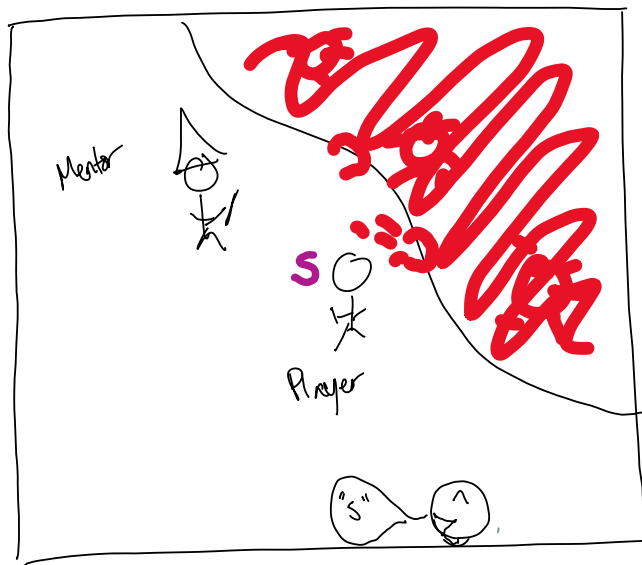

The mentor prompts the player to try to capture as many /s/ sounds as possible.

The lava lake stirs and a bubble rises and bursts. As the /s/ sound is released, the player is presented with a space to control the waving of their character's wand.

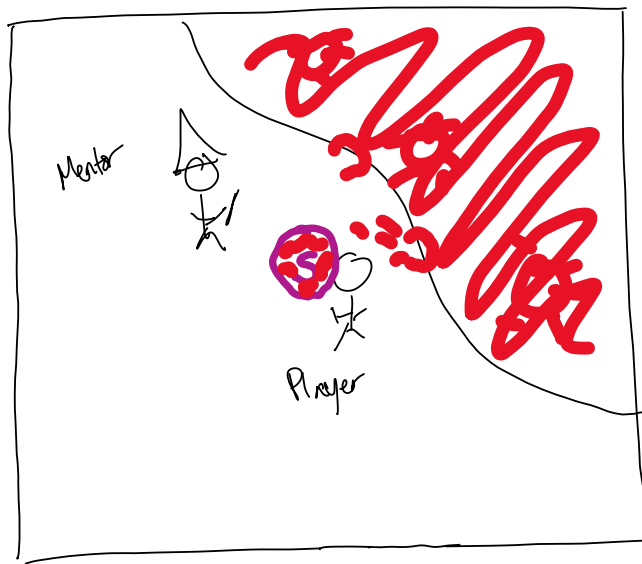

Practice Sequence

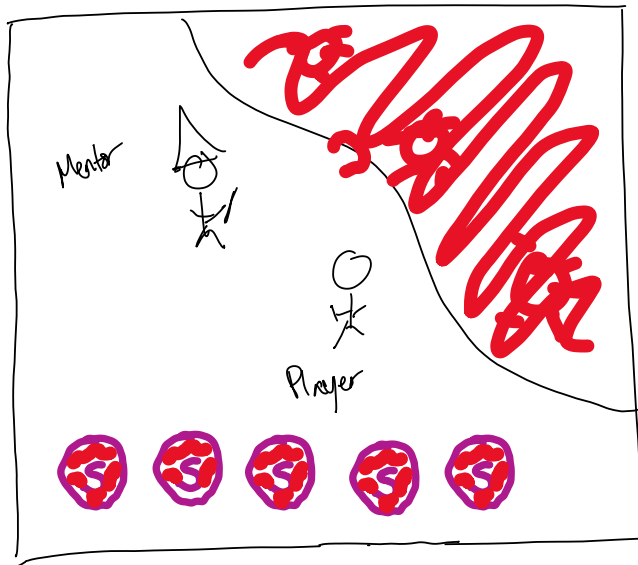

If the player does not successfully write the S, then they are given an outline to trace the S.

If the player does not successfully say the S's name "S", then the Mentor yells out a reminder to say "S".

If the player successfully says the S's name, then they create the magical orb capturing the /s/.

Player collects as many S-/s/ orbs as they can in 30 seconds.
